

**Federation of Canadian Municipalities
Municipal Building Retrofits**

Program Guide

Acknowledgements

The Federation of Canadian Municipalities (FCM) would like to acknowledge the team of dedicated individuals who wrote, reviewed, and produced the Municipal Building Retrofit Guide and associated material. We thank them for their time, expertise, effort, and personal commitment.

The principal authors of the Guide were **John Purkis**, **Bryan Flannigan**, and **Jennifer Niece** from FCM. Special thanks to Sharon Boddy, Laura Logan, Frances Tanner and Sylvie Delaquis for their sharp eyes and editorial comments.

Doug Tripp of the Canadian Institute for Energy Training and **Steve Dixon** of TDS Dickson contributed to the re-development of Natural Resource Canada's Dollars to Senses workshop series including: Strategic Energy Planning Workshop for Municipal Governments, SPOT the Energy Opportunity Saving Opportunities Workshop for Municipal Governments, and Monitoring and Verification Workshop for Municipal Governments. In addition, they contributed to the development of the *Project Proposal*, *Feasibility Study*, *Project Implementation*, and *Monitoring and Verification* sections of the Guide.

Mike Donnelly contributed to the graphic design and layout, while **Lyse Contant** of Services linguistiques Ergé carefully translated the Guide.

Ian Meredith and **Ian Hamilton** of TerraChoice and **Jiri Skopek** of Energy and Environment Canada Ltd. made significant contributions to creating Green Leaf Assessment™ for Municipalities. In addition, **Stephen Gasser & Jake Prior of Town of Banff**, and **Bob Wilson** of the City of St. John's participated in the testing and piloting of the Green Leaf Assessment™.

The *Finance and Implementation* section of the Resource Manual was adapted from "Financing Energy Efficiency in Buildings," with permission of the US Department of Energy and with the assistance from **Ian Jarvis** of Enerlife Consulting.

Rob Kerr of the International Council for Local Environmental Initiatives contributed to the *Data Collection and Opportunity Assessment* and *Building Maintenance* sections. **Vince Catalli** of By Design Consultants prepared the *Waste Disposal Closing the Loop* section.

Trevor Heavens and **Doug Harvey-Smith** of Kaladar Enersave Management Inc. produced *Model Energy Performance Request for Proposal*, *Model Request for Third Party Services*, and *Model Energy Performance Contract First-Out Style Contract*.

The City of Toronto's "GIPPER's Guide to Environmental Purchasing" is used with their permission in the section on *Green Procurement*.

Content for the *Communications Manual* was developed from "A Manager's Guide to Creating Awareness on Energy Efficiency" (Natural Resources Canada) and "Trousse D'Efficacité Energetique pour le Milieu Municipal" (Agence de l'efficacité énergétique du Québec).

Table of Contents

Introduction	Tab 1
Section 1 – Overview and Enrolment	Tab 2
Section 2 – Green Leaf™ Assessment.....	Tab 3
Section 3 – Post Assessment Review	Tab 4
Section 4 – Action Plan.....	Tab 5
Section 5 – Project Proposal	Tab 6
Section 6 – Feasibility Study.....	Tab 7
Section 7 – Project Implementation	Tab 8
Section 8 – Monitoring and Verification	Tab 9
MBR Resource Manual.....	Tab 10
MBR Training Manual	Tab 11
MBR Communications Manual	Tab 12
MBR Case Studies	Tab 13
